

## Contact Us / Online Registration / Custom Form Builder

### General Settings

Show CAPTCHA

CAPTCHA Prompt

Submit Button Caption

Confirmation Message

Redirect URL

(Include protocol e.g. 'http://')

### *The key aspects of the module's General Settings are as follows:*

1. **Show CAPTCHA:** Turn CAPTCHA on or off. CAPTCHA is a measure to minimise spam from automated email bots.
2. **CAPTCHA Prompt:** Optional. Enter a custom instruction, in any language, to be displayed below the CAPTCHA. The default is 'Enter in the number above:'
3. **Submit Button Caption:** Optional. Enter a word or phrase, in any language, to be displayed on the Submit button. The default is 'Submit'
4. **Confirmation Message:** Enter a custom message, in any language, to be displayed after the user selects the Submit button.
5. **Redirect URL:** Optional. Enables progress from this form to the next (work flow) by designating what page (full URL including http://) to view after the user clicks the Submit button. The default is no redirection.

### *Please note:*

- You may tick Show Errors during troubleshooting for a more detailed summary of an error. We will try to help if we can. Please provide all your settings details and a screenshot to [support@intechrity.com.au](mailto:support@intechrity.com.au)
